RE: Sanitary Sewers

Lake Mahopac Area - Route 6N

(T) Carmel

Sources Division (914) 742-2012/3

(914) 742-2080

Division of Drinking

Water Quality Control

Dear Mr. Karell:

I have received a copy of your letter of April 15th to John and Susan Hoy Crawford regarding the installation of a sewer line in the Route 6N, Lake Mahopac Area (see attached).

Sewer service in this area would require an expansion of P.O. Box 66 Valhalla, New York 10595 the sewer district. Such plans are not part of the facility plan for the new Mahopac Wastewater Treatment Plant being designed under the Order on Consent.

ALBERT F. APPLETON Commissioner

The proposed new facility has been sized to treat existing sewer district flow. The design flow includes a significant contribution the from presently excessive inflow infiltration (I/I). This condition must be corrected before the City could entertain an expansion of the sewer district. JOSEPH P. CONWAY, P.E. addition, a proposal for an expansion of the sewer district would require a study by the Town of Carmel to determine the adequacy of existing treatment and the specific areas to be served by the sewer district.

Deputy Commissioner

If you have any questions, please contact Joseph Landau at 742-2051.

Very truly yours,

George Mekenian, P.E. Chief, Sources Division
